
Besting it at the Senior KG Best Out of Waste Activity

Pune, Maharashtra | October 12th, 2020

Reduce, Reuse and Recycle: The Three Rs are the prime values of waste management through which one can aid in saving the environment. In order to imbibe these values from a very young and tender age, a “Best Out of Waste” online activity was organised by the pre-primary faculty of S.B. Patil Public School for students of Senior KG section on October 12th 2020.

The kiddies used reusable and recyclable materials like newspaper, bottles, coconut shells, old CDs, etc to create artistic crafts. Fantabulous ideas were demonstrated using these materials by the tiny tots. These activities helped them to enhance not only their creativity and presentation skills but children also to realise the importance of Three Rs and the need for saving the environment.
