
As a Gesture of Goodwill: Our Book Donation Practice

Pune, Maharashtra | 2023-24

Encouraging the holistic development of both student and faculty has always been part of S.B. Patil Public School's creed. Emphasis is laid on diverse arenas such as academics, sports, visual and performing arts, creative and critical thinking, etc for students; and in-house and external training and development, 360-degree appraisals, motivation to pursue and publish research papers, etc for faculty.

But above all these, S.B. Patil Public School's value system of Respect, Integrity, Compassion, Humility, Empathy, Simplicity and Trust is heavily stressed on so as to encourage both student and faculty to become good human beings.

Green and CSR activities play an integral part in the school's system. One such activity is our book donation practice. It is here that students, faculty and parents are encouraged to donate books to the library when they feel like, or especially on any occasion such as a student's birthday. Many parents have donated books to the library. In fact, since January 2023, over 113 books have been donated by 31 people including students, parents and faculty, and all this has helped us now have over 11,500 books as on January 2024.

This practice not only encourages those who love to read to share that gift with the rest of us, but also help others earn and learn the value of reading books. In fact, the school library can now even be accessed by parents.
