
Practice Creates Preparedness: A Surprise Mock Evacuation Drill for All

Pune, Maharashtra | 5th February, 2024

On 5th February, 2024 a surprise mock evacuation drill was conducted for the students of Nursery to Grade XII. At about 10:30 am, the fire alarm sounded, on hearing which, all teachers, in a secure and timely manner, guided and escorted students to the school sports ground wherein all of them assembled.

Mock evacuation and reverse evacuation drills are periodically conducted by the school's Emergency Response Team to instil emergency preparedness of students and staff alike.

We thank the school's Emergency Response Team for conducting this surprise mock drill, thereby ensuring future readiness and timeliness.
