
A Festive Fusion of Faith, Fun and Food!:

The Grades I and II Navaratri Celebration and Goodie Foodie Day

Pune, Maharashtra | 16th October, 2026

Blue House celebrated Navaratri in the school auditorium during the first lecture with vibrant cultural performances. Student anchors confidently hosted the programme, while nine girls portrayed the Nava Durga, explaining the significance of each form of Goddess Durga. The celebration also featured shloka recitation, a lively Navaratri dance and an energetic Garba performance.

The programme familiarised students with Indian traditions and highlighted values of courage, devotion, kindness and the triumph of good over evil. It also nurtured confidence, coordination and appreciation for India's cultural heritage.

During the second lecture, students participated in a hands-on food preparation activity in their respective classrooms. They prepared delicious snacks, including chaat papdi, corn bhel, sprout bhel and murmura bhel, using ingredients brought from home.

Guided by their teachers, students learnt basic food preparation, the importance of nutritious food, and the need to maintain hygiene. Sharing ingredients, taking turns and working together encouraged teamwork, cooperation, responsibility and independence.

The activities helped students: understand the cultural and spiritual significance of Navaratri and the nine forms of Goddess Durga, develop confidence, creativity, rhythm and coordination through cultural performances, practice teamwork, sharing and following instructions and build awareness of healthy eating, food hygiene and practical life skills.

The Navaratri Celebration and Goodie Foodie Day offered a delightful blend of culture, creativity and experiential learning. The celebrations enriched students' understanding of Indian traditions, while the food activity encouraged healthy habits, cooperation and independence, making the day both joyful and educational.
