
Art Integration in Science: The Grade III Leaf-tracing Activity

Pune, Maharashtra | 14th October, 2023

14th October, 2023 was a bagless day for the students of Grade III to V. On that day, students of Grade III enjoyed a leaf-tracing activity. Students brought leaves of different sizes and shapes; traced and coloured them in their art books; and then labeled the parts of the leaf.

Students of Grade III have currently been studying the parts of a leaf in their science chapter: "The World of Plants". The aim of this art-integrated activity was to help students explore leaves of different shapes, colours and textures, to hone in their artistic skills, all whilst understanding and learning the science topic being taught, "The Different Parts of the Leaf".
