

Dipped in Sunshine: Celebrating Yellow Colour Day

Pune, Maharashtra | 28th November, 2025

On Friday, 28th November, 2025, S.B. Patil Public School observed Yellow Colour Day with immense joy and enthusiasm, transforming the campus into a lively celebration of creativity and experiential learning for all grades in the Foundational Stage: Nursery to Grade II

The day aimed to introduce the young learners of Nursery to Senior KG to the colour yellow through playful, hands-on activities. Children arrived dressed in delightful shades ranging from soft lemon to bright mustard, fully embodying the sunny spirit of the occasion. Teachers curated a variety of experiential tasks designed to help students recognise and connect with the colour in meaningful and memorable ways.

A major highlight was the 'science behind magic' segment, where the little ones watched in awe as their yellow turmeric paint turned magically red upon contact with detergent. Alongside this, bottle dabbing, sponge painting, lemon dabbing, and thumb printing offered budding artists ample opportunity to explore and express their creativity. The incorporation of Surya Namaskar added a thoughtful touch, honouring the Sun — the natural source of yellow radiance.

Simultaneously, Grades I and II marked Yellow Colour Day and Fun Day with equal enthusiasm. The event, beautifully hosted by the Yellow House in the school auditorium, opened with a melodious song performance followed by a lively skit based on the monthly theme – Integrity. A cheerful yellow-themed ramp walk added charm and confidence to the morning, filling the auditorium with energy, smiles, and vibrant hues.

To strengthen their connection with nature, students stepped out to the synthetic ground for a drawing activity under the warm sunshine. Surrounded by natural light, their creativity flourished as they sketched and coloured. Returning to their classrooms, they completed an engaging task where they drew five yellow-coloured objects and spoke a few lines about each, helping to enhance their vocabulary, creativity, and presentation skills.

Across all sections, Yellow Colour Day proved to be far more than a colour-themed event. It was a celebration of imagination, hands-on learning, and joyful expression. With sunshine — both real and symbolic — filling every moment, the day left students enriched, energised, and smiling brightly.
