Dog Bite Awareness Session for Grades I and II

Pune, Maharashtra | 18th November, 2026

S.B. Patil Public School, Ravet, organised a Dog Bite Awareness Session for students of Grades I and II on Wednesday, 18th November, 2026. The session was conducted by the school nurse, Ms. Minakshi Bajpai, with the aim of educating young learners about staying safe around dogs and understanding the precautions to be taken to prevent dog bites.

Through a simple and child-friendly explanation, Ms. Minakshi Bajpai highlighted the importance of not teasing, disturbing or approaching unfamiliar dogs. Students were guided on how to behave calmly around dogs, avoid touching stray dogs and inform an adult if they encounter an unfamiliar or aggressive dog.

The session also emphasised the importance of immediately informing parents, teachers or other responsible adults in case of a dog bite or scratch and seeking prompt medical attention.

The interactive session helped students understand basic safety measures and develop awareness about responsible and compassionate behaviour towards animals.

It was an informative and meaningful initiative that empowered our young learners with essential safety knowledge.
