

Learning Beyond the Classroom: Student-Led Fun Fair Activity

Pune, Maharashtra | 10th October, 2026

S.B. Patil Public School organised a vibrant Student-Led Fun Fair on 10th October, 2026 for students of Grades X to XII, providing a dynamic platform for students to showcase their creativity, entrepreneurial spirit, and organisational abilities. Rooted in the principles of the National Education Policy (NEP) 2020, the initiative transformed learning into a practical, engaging experience that encouraged independence, collaboration, and real-world skill development.

The school campus buzzed with excitement as students planned, organised, and managed stalls featuring entertaining games, interactive activities, creative merchandise, and homemade food. Each stall reflected their ingenuity, teamwork, and meticulous planning, while the enthusiastic participation of fellow students and faculty added to the festive atmosphere.

A major attraction was the display and sale of handcrafted products and homemade delicacies. From conceptualising products to managing sales and interacting with visitors, students experienced the practical aspects of running an enterprise. These activities fostered entrepreneurial thinking, financial literacy, communication, problem-solving, and time management—competencies that complement NEP 2020's emphasis on vocational exposure, experiential learning, and the development of essential life skills.

Beyond the festivities, the fair encouraged students to take initiative, make informed decisions, manage responsibilities, and learn from experience. By translating ideas into action, they discovered the value of self-reliance, resourcefulness, and collective effort. The initiative also reinforced the dignity of labour and the importance of applying knowledge beyond conventional classroom settings.

The Student-Led Fun Fair concluded on a cheerful note, leaving students with a sense of achievement and memories of a day filled with learning and camaraderie. Reflecting the vision of NEP 2020, the event reaffirmed the school's commitment to holistic, skill-oriented, and student-centred education, empowering learners to become confident, creative, and responsible individuals equipped for the challenges of the future.
