
Mock Reverse Emergency Drill Conducted

Pune, Maharashtra | 23rd October, 2023

To ensure the safety of its students and staff, S.B. Patil Public School conducted a mock reverse drill on 23rd October, 2023 for all classes ranging from Nursery to Grade XII. Reverse emergency drills are conducted to prepare one in case of an external emergency such as riots, terrorist attacks, earthquakes, etc.

As soon as the alarm sounded in the halls of the school, the faculty members and support staff ensured that all students were rushed into the classrooms. Doors were locked as students knelt below desks imitating what would be done in case of an external threat or earthquake.

We thank the school's Emergency Response Team for conducting this drill and instilling preparedness in all students and staff.
