## Prepping for Safety: Mock Fire Drills Conducted

Pune, Maharashtra | 11<sup>th</sup> and 14<sup>th</sup> September, 2023

S.B. Patil Public School has always ensured the safety of its students in many ways: from security at entry and exit points to CCTV cameras, and various committees amongst other methods.

Another measure taken are periodic evacuation drills. On 11<sup>th</sup> September, 2023, the Nursery to Grade V faculty were given training on reverse evacuation drills, wherein, should an exigency such as riots or external attacks occur, how students and faculty must evacuate into the safety of the school building to their respective classrooms along with their teachers.

A surprise mock fire drill was conducted on 14<sup>th</sup> September, 2023 for all classes: Nursery to Grade XII. All students promptly evacuated the building along with their class teachers to the playground and basketball court wherein they assembled until called back in.

We thank our Sports Department headed by Mr. Dhanaji Patil; and all the faculty and Student Council members of the Health and Wellness Committee for organising and conducting the drill.
