A Storytelling Session for Grade IV

Pune, Maharashtra | 2nd November, 2026

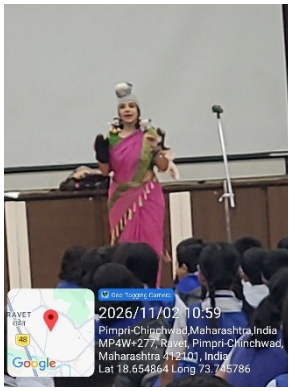

S.B. Patil Public School, in collaboration with Scholastic India Pvt. Ltd. and the school library, organised an engaging and enriching storytelling session for the students of Grade IV on Monday, 2nd November, 2026, in the school auditorium.

The session was conducted by the talented storyteller, Ms. Sharanya Sriram, who brought the story *"The Popcorn and the New Machine"* to life through colourful puppets, expressive actions and excellent voice modulation. Her lively narration, creative presentation and engaging storytelling techniques captivated the young audience and made the session both enjoyable and memorable.

The session provided more than just entertainment; it offered a meaningful learning experience. It stimulated students' imagination, encouraged creative thinking and helped them develop attentive listening skills. Through the expressive narration and interactive presentation, students also gained an understanding of how gestures, facial expressions and voice modulation make storytelling more effective. The session further contributed to vocabulary enrichment, pronunciation and communication skills.

The students enthusiastically participated in the session and shared their reflections afterwards. They expressed how much they enjoyed the storytelling experience and how they learned many new things. The session also highlighted the importance of reading and inspired students to explore storybooks and develop reading as a joyful and regular habit.

Such interactive and immersive experiences play an important role in nurturing young minds, building confidence and making learning enjoyable beyond the classroom.

We extend our heartfelt gratitude to the School Management, our respected Principal Ma'am, Roopali Bhargava Assistant Manager, Scholastic India Pvt. Ltd. and the School Library Team for organising this wonderful and enriching experience for our young learners. A special appreciation to Ms. Sharanya Sriram for making storytelling such a delightful and memorable experience for our students.
