

A Green Campus, A Responsible Future: Achieving a 4-Star Rating in Swachh Evam Harit Vidyalaya Assessment

Pune, Maharashtra | 22nd January, 2026

S.B. Patil Public School, Ravet, has been awarded a prestigious 4-Star rating under the Swachh Evam Harit Vidyalaya Rating (2025–26), a national initiative led by the Ministry of Education to evaluate schools on parameters of cleanliness, hygiene, water conservation, and environmental sustainability. The recognition stands as a testament to the school's consistent commitment to nurturing responsible, environmentally conscious citizens.

The assessment focuses on critical areas such as sanitation infrastructure, hygiene practices, sustainable use of resources, waste management, and awareness of environmental responsibility among students and staff. By securing a 4-Star rating — categorised under the "Very Good" performance bracket — the school has demonstrated strong alignment with the objectives of the National Education Policy (NEP) 2020, particularly its emphasis on sustainability and holistic education.

This achievement reflects the collective efforts of the school management, teaching and non-teaching staff, students, and parents, who have actively participated in maintaining a clean, green, and health-conscious campus. Regular cleanliness drives, water conservation initiatives, eco-friendly practices, and student-led awareness programmes have played a pivotal role in meeting the evaluation benchmarks.

The recognition further reinforces S.B. Patil Public School's vision of education beyond academics — one that instills discipline, civic responsibility, and respect for the environment from an early age. The school remains committed to strengthening these practices and striving towards even higher standards of environmental excellence in the years to come.
