## The Mock Fire Evacuation Drill

Pune, Maharashtra | 27<sup>th</sup> January, 2025

On 27<sup>th</sup> January, 2025, a surprise mock fire evacuation drill was carried out for students from Nursery to Grade XII. At approximately 10:15 am, the fire alarm rang, prompting all teachers to swiftly and securely guide the students to the school sports ground, where they gathered in an orderly manner.

These drills, including mock and reverse evacuations, are regularly organised by the school's Emergency Response Team to reinforce the importance of emergency preparedness for both students and staff. We extend our gratitude to the Emergency Response Team for conducting this surprise drill, ensuring that everyone is ready and equipped for any future emergencies.

The drill also serves as a valuable learning experience for students, helping them to remain calm and follow instructions during a potential crisis. It emphasises the importance of quick thinking and collective action in ensuring safety. The school is committed to creating a secure environment, where both students and staff feel confident in their ability to handle emergency situations efficiently.
