
When Languages Sing: Observing Bharatiya Bhasha Utsav, Day 2

Day 2: Friday, 5th December, 2025

Topic: Poetry Across Languages and Music Through Languages

The second day of the programme celebrated the artistic beauty of languages through poetry and music, highlighting how emotions and stories transcend linguistic boundaries.

Students sang Hum Honge Kamyab in different languages. Hum Honge Kamyab, the Hindi adaptation of the renowned song We Shall Overcome, is a timeless piece that conveys hope, unity, and unwavering confidence. Its message affirms that no challenge is insurmountable when we remain resilient, work with dedication, and support one another.

The song, often sung in schools for its uplifting spirit, filled the young performers with courage and positivity. Its simple, soothing tune made it accessible for students to sing together, fostering a sense of togetherness and harmony.

For this programme, students from Grades III to V presented the song in various Indian languages, symbolising the unity and diversity of our nation. Though the languages differed, the sentiment remained unchanged —

- They believed in themselves.
- They affirmed that obstacles can be overcome.
- They strengthened their conviction that success is within reach.

The performance brought everyone together, evoking feelings of hope, teamwork, and determination. It served as a reminder that when we stand united, nothing is beyond possibility.

Day 2 aimed to inspire creativity, encourage multilingual expression, and deepen appreciation for the artistic forms that languages embody across cultures.
