## **Saving the Environment: E-Waste and Plastic Waste Collection Drive**

*Pune, Maharashtra | 5<sup>th</sup> to 25<sup>th</sup> January, 2026*

S.B. Patil Public School takes immense pride in announcing the successful completion of its E-Waste and Plastic Waste Collection Drive in association with Poonam Ecovision Foundation — a near-ten day initiative designed to foster environmental responsibility and sustainability among students, staff, and the local community.

The drive aimed to create awareness about the harmful effects of improper waste disposal and to encourage the habit of recycling and reusing resources. Over the course of the campaign, students and staff actively participated by collecting a substantial amount of electronic and plastic waste from their homes and surroundings. The collected waste will be responsibly disposed of through authorised recycling channels, ensuring minimal environmental impact.

The event also served as a valuable learning opportunity for students to understand the importance of sustainable living and their individual role in protecting the planet. Through hands-on participation, they were able to connect classroom knowledge on environmental studies with real-world action.

A heartfelt thank you goes out to our principal, vice-principal, and HM for their constant motivation and guidance. Appreciation is also extended to the school administration for their unwavering support and seamless coordination throughout the drive.

Special mention must be made of our student volunteers, whose enthusiasm, commitment, and teamwork played a key role in making the initiative a resounding success. Their dedication truly reflects the spirit of responsible citizenship that S.B. Patil Public School seeks to instil in every learner.

This initiative marks another step in the school's ongoing efforts to promote eco-friendly practices and raise environmental consciousness within the school community.
