

The Grades III to V Best Out of Waste Competition

Pune, Maharashtra | 30th January, 2026

The Best Out of Waste Competition for students of Grades III to V was successfully conducted on 30th January 2026. The initiative aimed to foster creativity, environmental consciousness, and an understanding of the effective reuse of waste materials among young learners.

Participants were required to bring waste materials from home, including newspapers, cardboard, plastic bottles, ice-cream sticks, and other reusable items. The use of ready-made materials was strictly prohibited, ensuring originality, innovation, and hands-on involvement from every participant.

Students displayed remarkable imagination and skill as they transformed discarded materials into useful and innovative creations. The entries were evaluated on the basis of creativity, utility, and overall presentation.

The competition proved to be both engaging and educational, reinforcing the principles of reduce, reuse, and recycle, while nurturing students' problem-solving abilities, environmental responsibility, and creative thinking.
