## Prevention Is Always Better Than Cure: A Guideline to Traffic Norms

Pune, Maharashtra | 12<sup>th</sup> August, 2025

In accordance with the guidelines from the CBSE regarding An Online Student Outreach Programme on Awareness About Traffic Rules, S.B. Patil Public School conducted the session on campus on 12<sup>th</sup> August, 2025 for senior students of Grades IX to XII.

The school organised a live streaming of the event, mentored by the Central Academy of Police Training, Bhopal, from 10:30 am onwards. The programme effectively addressed key topics related to the Indian road traffic scenario, with the primary objective of creating awareness among our future nation-builders. It enlightened students on the pros, cons, and essential prerequisites of being vigilant and responsible riders on the

roads.

What students found most commendable was the comprehensive nature of the session, which provided detailed insights into road accidents, traffic norms, and data analysis of fatal mishaps. It also shared information on the road traffic situation across India and emphasised the responsibility of enlightened citizens to abide by traffic rules in order to "save self – save lives".

The event was organised under the guidance of our principal, Dr. Bindu Saini. CBSE activities in-charge, Ms. Swaleha Mujawar; section coordinators, Ms. Prutha Vaidya and Ms. Darshana Kamat; IT Team Head; Ms. Richa Arora and her team, along with other faculty members worked together to ensure the successful execution of the programme.
