

Hosting the ULLAS Nav Bharat Shaksharta Abhiyaan

Pune, Maharashtra | 21st September, 2025

In alignment with the National Education Policy 2020, the Government of India has launched a centrally sponsored initiative, the New India Literacy Programme, popularly known as ULLAS (Understanding of Lifelong Learning for All in Society).

Designed for a period of five years (2022–2027), the programme aims to provide foundational literacy and numeracy through critical life skills, enabling learners to perform essential daily tasks, from basic financial transactions to understanding and exercising their rights to communicate and comprehend.

On Sunday, 21st September, 2025, S.B. Patil Public School, Ravet, Pune served as a centre for the Nav Bharat Saksharta Karyakram, where adult learners were given the opportunity to enhance their literacy and numeracy skills. The programme, implemented through volunteerism, encouraged participants to access learning content in local languages via the DIKSHA platform by NCERT.

Volunteer teachers, Ms. Maithili, Ms. Varsha Kulkarni and Ms. Sujata Bhoite, guided the four learners registered for the session. The learners actively engaged with the program, gaining practical knowledge and skills that will empower them to contribute meaningfully to society.

The ULLAS initiative reflects the nation's commitment to lifelong learning and inclusive education, ensuring that every adult has the chance to acquire essential skills and actively participate in India's growth.
