
A Step Towards Health and Safety:

Japanese Encephalitis Vaccination Drive at S.B. Patil Public School

Pune, Maharashtra | 5th and 6th April, 2025

On Saturday and Sunday, the 5th and 6th of April 2025, S.B. Patil Public School became the center of a significant health initiative as the Japanese Encephalitis (JE) vaccine was administered to students from Nursery to Grade IX. A total of 1,380 students received the vaccine, marking a pivotal step towards ensuring the well-being of the young minds in the school community.

Japanese Encephalitis is a viral brain infection transmitted through mosquito bites, posing serious health risks, especially to children. Vaccination is the most effective way to prevent this life-threatening disease, which can cause severe neurological complications or even death if not treated promptly.

The vaccination drive saw enthusiastic participation from both students and their parents, who accompanied them to the school premises. The event was conducted with meticulous planning and efficiency, reflecting the school's commitment to health and safety.

The success of the vaccination drive would not have been possible without the invaluable support of the school's leadership and staff. Special thanks are due to the school principal, Dr. Bindu Saini, whose guidance and vision ensured smooth coordination of the event. The vice principal, Ms. Padmavati Banda; and the Head Master, Ms. Shubhangi Kulkarni, played crucial roles in managing the logistics and overseeing the smooth flow of the process.

Appreciation also goes to the administrative officer, Mr. Manish Dhekale, for his effective management behind the scenes. The school nurses, Ms. Sujata Bhalerao and Ms. Kalyani Jadhav, provided compassionate care and support, ensuring that the vaccination was carried out safely and comfortably for all students.

This vaccination drive not only highlights the school's proactive approach towards health but also sets a commendable example of community involvement in public health initiatives. With such dedicated efforts, S.B. Patil Public School continues to be a beacon of excellence, nurturing both the minds and health of its students.
