
National Education Day Celebrated with Pride: A Grade VIII Yellow House Special Assembly

Pune, Maharashtra | 11th November, 2025

S.B. Patil Public School observed National Education Day on 11th November, 2025 with a special assembly led by the students of Grade VIII, Yellow House. The event served as a meaningful tribute to the nation's educational pioneers and reflected the school's commitment to nurturing informed, thoughtful, and future-ready learners.

The programme opened with a solemn remembrance of Maulana Abul Kalam Azad, the first Minister of Education of independent India. Students reflected on his lifelong dedication to universal education and his unwavering belief in its transformative power. His conviction that education is the strongest force for change set the tone for the morning's proceedings.

Students then took the stage to present an insightful discussion on the National Education Policy 2020. With clarity and enthusiasm, they explained how the policy's emphasis on holistic development, inclusion, and skill-based learning resonates with India's emerging educational landscape. One student aptly remarked that NEP 2020 "envisions an education system rooted in our cultural values while preparing us for the challenges of the 21st century."

The assembly further highlighted the contributions of eminent personalities in the field of education. Students spoke with admiration about Dr. A.P.J. Abdul Kalam, whose inspiring journey from modest beginnings to becoming one of the nation's most respected scientists continues to motivate generations. His values — dream big, work with dedication, and serve the nation — were powerfully echoed in the students' speeches.

The event concluded with a vote of thanks delivered by the House Coordinator, who encouraged everyone to embrace the spirit of lifelong learning and to uphold the values championed by India's great educational leaders.

The assembly not only commemorated National Education Day but also deepened students' understanding of their role as learners, thinkers, and responsible citizens.
