

S.B. Patil Public School Enriches its Library Collection at the NBT Book Fair 2025

Pune, Maharashtra | 14th November, 2025

S.B. Patil Public School took a meaningful step towards strengthening its reading culture and enhancing its library resources by participating in the NBT Book Fair held at the PCET Campus, Akurdi, on 14th November, 2025. The fair, organised by the National Book Trust (NBT), brought together a diverse range of books aimed at promoting literacy, knowledge, and the joy of reading among students and educators.

The school librarians visited the fair and meticulously explored the available collections to ensure that the selected books would enrich students' academic growth as well as support their reading interests across genres.

During their visit, the librarians successfully procured over 60 books spanning literature, science, value education, reference materials, and age-appropriate fiction and non-fiction titles. These additions aim to further diversify the school's library holdings and provide students with wider exposure to quality reading material.

The initiative reflects the school's ongoing commitment to nurturing a robust reading culture and ensuring that learners have access to well-curated, meaningful, and inspiring resources. The newly acquired books will soon be available for circulation, offering students fresh opportunities to read, explore, and learn.
