
Where Classrooms Meet Continents: Strengthening Indo–German Academic Collaboration

Pune, Maharashtra | 29th January, 2026

On 29th January, 2026, an insightful session on collaboration between India and Germany in the fields of education, skill development, student exchange programmes, and joint investments was held at Pimpri Chinchwad College of Engineering (PCCOE), Akurdi Campus, Pune.

The session was honoured by the presence of the German delegation led by Dr. Frank Mentrup, Lord Mayor of Karlsruhe; accompanied by Ralf Eichhorn and Sabine Dietlmeier from the Karlsruhe Economic Development Agency.

Representing the S.B. Patil Public School, principal, Dr. Bindu Saini; and German Language teacher, Ms. Priyanka Bendre, attended the sessions, which focused on strengthening academic and industry partnerships between the two nations. The discussions explored collaborative models that integrate higher education institutions, vocational training frameworks, and industry stakeholders to foster global learning environments and improve student employability.

Key deliberations highlighted the role of international student exchange programmes, joint research initiatives, and cross-border skill development pathways in preparing a future-ready workforce. Emphasis was placed on aligning academic curricula with evolving industry demands, encouraging innovation-led learning, and facilitating joint investments that support sustainable educational ecosystems.

The sessions collectively underscored the importance of strategic international cooperation in addressing global skill gaps and enhancing academic excellence. Such collaborations not only deepen educational and economic ties between India and Germany but also pave the way for knowledge exchange, innovation, and long-term institutional growth.

The interaction served as a meaningful step towards building enduring partnerships that empower students, educators, and industries across both countries, reinforcing the shared vision of global competence and collaborative progress.
