
Understanding the Working, Functioning and Quality Facilities: The Student Council's School Tour

Pune, Maharashtra | 24th October, 2024

On 24th October, 2024, the school's Student Council took a tour of the school premises to understand the infrastructure, facilities, safety measures, and functionings of the various departments and operations. They were led by the administrative manager, Mr. Manish Dhekale, and accompanied by transport incharge, Mr. Shrikant Thite; and section coordinator, Ms. Nirupama Kale.

Mr. Dhekale elaborately explained the steps the school takes to provide quality facilities to the students such as RO filtered water, the generator to provide uninterrupted electricity, and other safety and security measures installed for students. In this interactive tour, the Student Council members shared their queries and questions which were answered in detail by Mr. Dhekale, Mr. Thite and Ms. Kale.

The Student Council members gained valuable insights into the school's commitment to their well-being and education during the tour. They understood that the school prioritises quality facilities for the benefit of the students.

Additionally, the comprehensive safety and security measures in place highlighted the school's proactive approach to creating a safe learning environment. The interactive discussions reinforced their appreciation for the administrative efforts that underpin their daily experiences, fostering a sense of responsibility and engagement in their roles as student representatives.

This experience not only informed them about the infrastructure but also inspired them to spread this among their peers.
