
Winning the District-level Computer Intelligence Exam

Pune, Maharashtra | 27th September, 2024; and 21st January, 2025

The Computer Intelligence Exam is a test that helps measure how well students understand computers and technology. It includes questions about how computers work, how they can solve problems, and how they can learn from data.

The exam is designed to test basic concepts like algorithms, patterns, and smart technologies such as artificial intelligence. By taking the exam, students can show how well they can think logically and use technology to solve challenges. This exam helps young learners prepare for the growing role of technology in everyday life and future careers.

A district-level Computer Intelligence Exam organised by the Computer Department at Jnana Prabodhini, Nigdi Kendra in October 2024. From S.B. Patil Public School too students participated. **The names of the rank holders are as follows:**

1. Anvi Panhalkar (Grade III)
2. Shraddha Dagade (Grade VI)
3. Aayushi Marathe (Grade IX)
4. Riddhi Mishra (Grade IX)
5. Aabha Kulkarni (Grade X)
6. Bhairavi Sarode (Grade X)

On 21st January, 2025, the students were felicitated by principal, Dr. Bindu Saini during the morning assembly. We congratulate all the students who actively participated and won the exam. We wish them the very best. We also congratulate our Computer Department faculty for mentoring our students so well.
