## A World Science Day Celebration: Grade X Yellow House Leads with Innovation

Pune, Maharashtra | 10<sup>th</sup> November, 2025

S.B. Patil Public School marked World Science Day on Monday, 10<sup>th</sup> November, 2025 with an engaging and thought-provoking assembly led by the students of Grade X, Yellow House. Centred on the theme "Science for a Sustainable Future," the programme transformed the morning assembly into a dynamic showcase of curiosity, innovation, and scientific thinking.

Students presented an impressive range of projects, including low-cost robot prototypes and interactive physics demonstrations that captivated the audience. Each exhibit reflected the learners' creativity, problem-solving skills, and growing awareness of how science can be applied to real-world challenges.

The event emphasised that science is far more than a textbook subject; it is a constant presence in our daily lives. From the technology we depend on, to the food systems that sustain us, to the health decisions we make each day — science shapes our choices and our future. Students highlighted the practical relevance of their experiments and models, sparking meaningful conversations on climate action, health, sustainability, and everyday innovation.

The celebration acknowledged the invaluable support of the science teachers, the school's innovation cell, and all participating students, whose dedication and enthusiasm brought the event to life. Their collective effort demonstrated that the future of scientific exploration is bright and promising.
